

Concierge Communications Announces Sponsorship for findLECmaps.com

Tempe, AZ , December 1, 2009 – Concierge Communications, a master agency and consultant for technology and communications solutions, today announced its sponsorship of the newly published web site findLECmaps.com. The site is a resource for sales agents, especially in the telecommunications industry, to find maps for Local Exchange Carriers by state.

“We’re proud to sponsor the project. I believe findLECmaps.com will be a great tool for telecom and technology sales agents. Geographic information is becoming more important as new technology is deployed, mergers and acquisitions continue and companies look first to technology availability before moving,” said Clark Atwood, Vice President of Concierge Communications.

findLECmaps features a list of 50 states and the availability of known Local Exchange Carrier maps. The intent of the site is to create a single location of disparate information and allow users to submit links to more current or accurate maps.

About Concierge Communications
